

EIS Data Requirements

EIS Extract Format

08/13/07

GENERAL COMMENTS:

- 1. All record fields are fixed length; fields with a 9 format must be zero filled and right justified. Fields with an X format must be space filled and left justified. Nulls or low values are invalid in any field. Examples:**
 - a. District ID is 20, District ID field should be 0020**
 - b. First Name is Robert field should contain Robert followed by 9 spaces.**
 - c. Middle Name is not provided, field should contain 15 spaces.**
- 2. If an EDIT record is transmitted to EIS and the requested data cannot be found in EIS to edit, the extract will be treated as if it were a NEW request.**
- 3. If a NEW record is transmitted to EIS and the requested data exist in EIS, the extract will be treated as if it were an EDIT request.**
- 4. Dependent records will be rejected in EIS if the parent records do not exist. Example, 040 and 041 records are sent for a student. The 040 is rejected due to a name problem, the 041 will also be rejected due to student not being in EIS for the requesting school.**
- 5. In all student records (040 – 052 and 090-092) either the Student Social Security Number or the Student PIN must be something other than 000000000. You must either send a correct SSN or a correct PIN. If both data fields are all zeroes then that record will be rejected.**
- 6. The State Assigned Student ID has now been added to all student records (040-052 and 090-092), with the exception of the 040 Student record all other records should have the State Assigned Student ID included in the records in order to create the extract for EIS. The 040 Student record should contain the data if it is available. If the State Assigned Student ID is not available send that record and a State Assigned Student ID will be generated in EIS for upload to the SIS package using the procedures created by the various vendors during the 2006-07 school year.**

Gender	1	X		The student's gender. Valid values are: <ul style="list-style-type: none"> • Male = M • Female = F
Race/Ethnic	1	X		The student's race or ethnic origin. Valid values are: <ul style="list-style-type: none"> • I = American Indian or Alaskan Native • A = Asian • P = Native Hawaiian or Pacific Islander • B = Black or African American • H = Hispanic or Latino • W = White
Filler	4	X(4)		Must be space filled.
Immigrant Student	1	X		If the student immigrated to the United States value must be "Y" if a naturally born student citizen of the United States value must be "N".
Date First Enrolled in a US School	8	9(8)		If student immigrated to the United States the year the student first enrolled in a school in US, format "CCYYMMDD". Value will be all zeroes if not immigrant student.
Year Entered Ninth Grade	4	9(4)		The school year the student was promoted to the ninth grade, Format must be "CCYY". Example, if student was promoted to the ninth grade during the 2006-07 school year value would be 2006. Value will be all zeroes if student has not yet entered 9 th grade. If child has not yet entered 9 th grade must be zeroes.
Native Language	3	X(3)		See Language List
State Assigned Student ID	9	9(9)		The unique state assigned student id generated in the EIS system.
Filler	20	X(20)		Reserved for future use. Must be spaces.

EIS Data Requirements

EIS Extract Format

08/13/07

COMMENTS:

1. If a delete 040 is generated for a student and that student has enrollments in only 1 school in 1 district, all subordinate records 041, 042, 043, 044, 045, 046, 047, 048, 049, 050, 051, **052**, 090, 091, 092 will be deleted for that student.
2. If a delete 040 is generated for a student and that student has enrollments in more than one school then the student will be deleted only in the requesting school, the student will remain in other schools. All subordinate records 041, 042, 043, 044, 045, 046, 047, 048, 049, 050, 051, **052**, 090, 091, 092 will be deleted for the student in the requesting school.
3. Immigrant Student – to be used only for those students who have immigrated to the United States, if not immigrant student places spaces in this field.
4. Date Entered USA – date that an immigrant student entered the United States, if not immigrant student field must contain zeroes.
5. Year Entered Ninth Grade – the year the student entered the 9th grade, if during the 2006-07 school year the value would be 2006.
6. Native Language – this is the code for the student's native language, please use the code from the provided list.
7. Previous fields (Student Previous Social Security Number, Student Previous PIN, Previous First Name, Previous Middle Name, and Previous Last Name) are used to allow for student key fields to be changed and keep existing data attached to the student, both in the current school year and in previous school years. Example, if John Smith changed his name to David Smith an edit 040 would be sent to EIS, we would not find the student based on David Smith, but since the Previous First Name field had a value in it (John) we would look for the student under the name of John Smith. When we found the student using John Smith we would change the first name in EIS to David. All remaining data would remain the same and now be associated with David Smith and John Smith would not longer reside in EIS. The same procedure applies to all of the previous fields.
8. **Please note the Record Version number has been changed to 02 for 2007-08.**

COMMENTS:

1. If a delete 041 is generated only that enrollment will be deleted, subordinate records 042, 043, 044, 045, 046, 047, 048, 049, 050, 051, **052**, 090, 091, 092 will be deleted for that enrollment.
2. Enrollment Reason – please select from one of the enrollment reasons from Appendix D, once a student has a correct Enrollment at a school for the school year, all future Enrollment Reason codes for that student during the same school year must be the same as the original Enrollment Reason.
3. Primary District ID – the student's primary enrollment district number.
4. Primary School ID – the student's primary enrollment school number.
5. Course of Study – if elementary student or a student has not declared their course of study leave blank.
6. If this enrollment is for a service enrollment the District ID and School ID fields will contain the district number and school number of the district and school providing the service. The Primary District ID and Primary School ID will be the district number and school number of the student's home school.
7. If a student had previously been enrolled in the school and had withdrawn and then returns to the school a new withdrawal and all new child records that apply (042-050 extracts) must be sent with the new enrollment (041 extract).
8. If a student's enrollment data has been changed, (not that the student has left the school and then returned but that the initial date submitted was incorrect) we need a 041 delete for the incorrect enrollment date and all new extracts 041-051 for the new enrollment date.

School ID	4	9(4)	Y	The ID number assigned by SDE must be a valid active public school within the school district in SDE Directory. If staff member is a district wide position 9999 will be considered valid to designate that this is a district wide position. If the district wide staff member is a teacher of record in a school then 9999 is not a valid school number when reporting that staff and class data.
School Year	4	9(4)	Y	The four-digit school year that the instructional program will be operated to provide instructional services to students. The year of the fall semester. Must be in format, "CCYY"
Instructional Program Number	2	99	Y	The number assigned to the instructional program to uniquely identify the instructional program within the school. For example, 01 = Traditional, 02 = Non-traditional (year round), either may be any number between 01 and 99.
Staff Social Security Number	9	9(9)	Y	SSN of staff member
Teacher License Number	9	9(9)	Y	Current license number of staff member
Local Staff Key	10	9(10)		Local software generated number that identifies the staff member
First Name	15	X(15)		Legally recognized first name of staff member
Middle Name	15	X(15)		Legally recognized middle name of staff member. If staff does not have a middle name value must be spaces.
Last Name	25	X(25)		Legally recognized last name of staff member
Suffix	3	XXX		Legally recognized suffix of the staff member. If the staff does not have a suffix value must be spaces.
Date of Birth	8	9(8)		Staff member's date of birth, must be format "CCYYMMDD"
Staff Previous Social Security Number	9	9(9)		Previous SSN reported for staff member. If no previous SSN value must be zeroes.
Staff Previous Teacher License Number	9	9(9)		Previous license reported for staff member. If no previous license number value must be zeroes.
